

# Cloudflare for Higher Education

Cloudflare helps you restore confidence and accelerate learning in the age of AI

## Accomplish your top priorities with speed, simplicity, and confidence

The [EDUCAUSE Top 10](#) highlights a growing trust problem across higher education for many reasons beyond technology. But it's clear that modern security and privacy remain critical issues as AI adoption accelerates. And reliable digital services that seamlessly connect academic and personal lives can help students succeed.

By partnering with Cloudflare, we can help you accomplish your goals and build trust in the future of education.

### Protect

Secure data and protect privacy with modern cyber security

-  Enhance institutional resilience
-  Stop disruptive cyber attacks
-  Achieve continuous compliance

Institutional resilience in higher education is crucial for addressing growing risks and uncertainties, according to [EDUCAUSE](#).

Cloudflare's modern security solutions help improve your security posture, stop disruptive attacks, and protect student privacy. We can also help you comply with mandates like GLBA, PCI, and CMMC.

#### Key capabilities:

-  [Zero Trust Network Access \(ZTNA\)](#)
-  [Secure Web Gateway \(SWG\)](#)
-  [Email Security](#)
-  [Remote Browser Isolation \(RBI\)](#)
-  [Data Loss Prevention \(DLP\)](#)

### Connect

Enhance digital service performance and resilience

-  Deliver trustworthy digital services
-  Integrate into existing ecosystems
-  Optimize networks and data centers

Reliable digital service delivery is essential for building trust with the people you serve. Students expect 100% uptime, high performance, and frustration-free user experiences.

Cloudflare's network and application services help deliver the resilient, always-on, responsive services that learners expect and deserve. We fit in, without the rip-and-replace.

#### Key capabilities:

-  [Domain Name Services \(DNS\)](#)
-  [DDoS Protection](#)
-  [Web Application Firewall \(WAF\)](#)
-  [Content Delivery Network \(CDN\)](#)
-  [API Gateway](#)

### Accelerate

Modernize faster and boost operational efficiency

-  Innovate faster with the power of AI
-  Reduce costs and complexity
-  Eradicate legacy technologies

AI is making people more productive and increasing the pace of innovation, while empowering adversaries with powerful tools to launch effective cyber attacks. And quantum computers pose a real threat to today's encryption.

Cloudflare is ready to help you accelerate innovation and modernize faster to ready now for the future.

#### Key capabilities:

-  [Modern network services](#)
-  [AI-powered developer services](#)
-  [Legacy technology defense](#)
-  [Lower operational costs](#)
-  [Post-quantum cryptography \(PQC\)](#)

# The Cloudflare advantage over any other approach

## One global cloud network unlike any other

Only Cloudflare offers an intelligent, global cloud network built from the ground up for security, speed, and reliability.

**32**

FedRAMP processing locations across 11 metro areas and growing

**335+**

cities in 125+ countries to serve data locally

**227B**

cyber threats blocked each day

**20%**

of all websites are protected by Cloudflare

**~50 ms**

from 95% of the world's Internet-connected population

**150+**

AI inference locations powered by GPUs

## FedRAMP Moderate authorized and committed to High

### Innovation everywhere

Our [unique approach](#) to authorization ensures every innovation is available everywhere – including FedRAMP processing locations

### Agility always

We're deploying tomorrow's requirements today, like [post-quantum cryptography](#), to secure your mission today – and tomorrow

### Continuous investment

We're [expanding our FedRAMP locations](#) both within the US and internationally to strengthen security and performance around the globe

### Next step: FedRAMP High

We [announced our intent](#) to pursue FedRAMP High as part of our long-term commitment to the federal government

## Universal Advantages

As the world's first connectivity cloud, Cloudflare delivers differentiated capabilities that have earned the trust of millions of customers around the globe.

### Significant Cost Savings

- Vendor consolidation
- CapEx offload
- Administration

### Threat Intelligence

- Extensive visibility
- Threat models
- Intercepted attacks

### Data Localization

- Data restriction
- Compliance
- End user privacy

### Simplicity and Ease of Use

- Dashboard
- Integrations
- Automation

## How can we help you accomplish your goals?
