

You will need to make sure your Billing details are added by selecting your tenant account, then in the Account Home, navigate to Manage Account → Billing

The screenshot displays the Cloudflare Tenant UI. On the left is a sidebar menu with the following items: Account Home, Discover, Domain Registration, Analytics & Logs, Security Center, Trace (Beta), WAF, Turnstile, IP Addresses, Zero Trust, Email Security, Workers & Pages, Workers for Platforms, Storage & Databases, R2 Object Storage, AI, Stream, Images, Calls (Beta), Manage Account, Notifications, and Bulk Redirects. An orange arrow points to the 'Manage Account' item. The main content area shows the 'Manage Account' page with a gear icon and a list of options: Members, Account API Tokens, Audit Log, Billing (highlighted with an orange arrow), and Configurations. To the right of the main content is a 'Manage Account' sidebar with 'Billing' selected. The 'Billing' page shows 'Payment method' as the active tab, with a note that all transactions are secure and encrypted. Below this is a 'Card details' section with fields for Card number, Expiration date, Security code, Country, and ZIP code. A 'Billing address' section follows with fields for First name, Last name, Address line 1, Address line 2 (optional), City, State/province (optional), Country, and Zip/postal code. At the bottom, there are fields for Account Type (set to Personal) and Company (optional), and a VAT/GST (optional) field. A 'Confirm' button is at the bottom right.
