

# Customers choose Cloudflare's SASE for the fastest Zero Trust adoption

Too many Zero Trust journeys are held back by disjointed "platforms" saddled with tech debt. See why enterprises choose Cloudflare's SASE/SSE platform, [Cloudflare One](#), to simplify secure access, protect their expanding attack surface and data, and improve business agility.

## Modernize remote access by replacing VPNs

“  
**Cloudflare simplifies how we deliver Zero Trust across our organization — that helps us mitigate risk more effectively with less effort.**”  
**Anthony Moisant**  
 SVP, Chief Information Officer, and CSO

- **Deprecated legacy VPN** in just over 3 months
- **Rolled out ZTNA** to 13,000+ employees and contractors
- **Identified and mitigated** generative AI risks

[Learn more >](#)

**Delivery Hero**

- **Secured internal access** for 44,000+ employees to all apps across self-hosted, SaaS, and non-web environments
- **Accelerated onboarding** of new employees and infrastructures

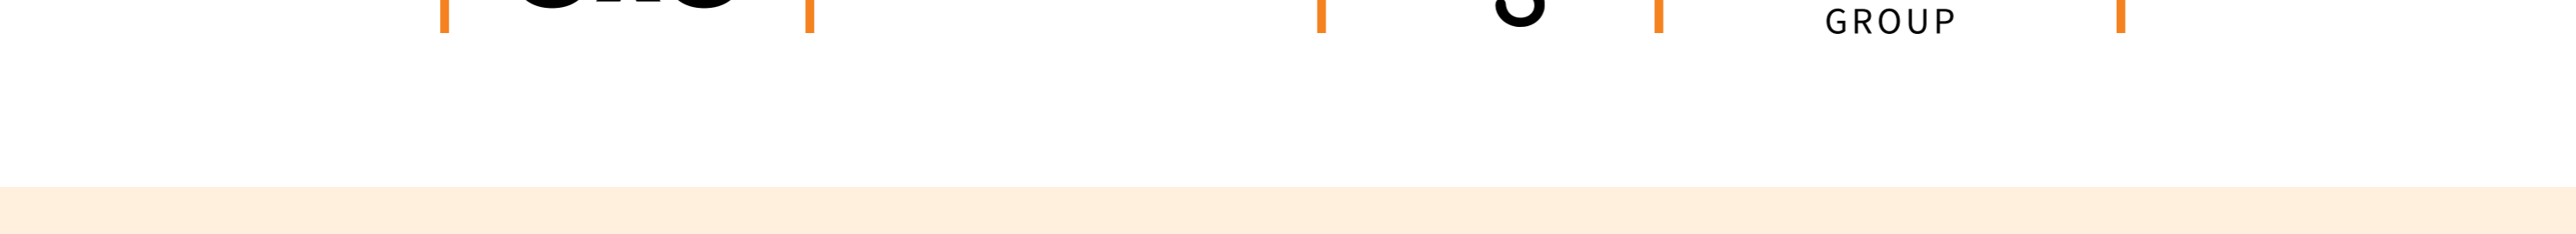

[Learn more >](#)

- **Reduced the time** spent preparing an app for safe deployment by ~90%
- **Eliminated the process** of working with vendors to recode or reconfigure tools to meet VPN requirements

## Modernize threat defense with unified SSE and email security

“  
**Defense must be layered ... Cloudflare helps align all those layers so that the bad things won't derail our organization.**”  
**Tonu Tammer**  
 CIO

- **Implemented Protective Domain Name Service**, in partnership with Accenture, across UK government and public services
- **Block Internet threats**, support compliance, and encrypt all web traffic for privacy

[Learn more >](#)

**WERNER ENTERPRISES**

- **Reduced malicious emails** in user inboxes (including for mobile and roaming customers) by more than 50%
- **Cut manual email triage** efforts by several hours per day, allowing teams to reinvest their efforts into strategic goals

[Learn more >](#)

- **Minimized data loss** by increasing visibility into SaaS apps
- **Saved time with CASB API** integrations for monitoring Microsoft, Atlassian, and other critical platforms

## Accelerate network and security modernization on one platform

“  
**...the Zero Trust portfolio services truly amazed us. Comparing the different features and capabilities of Cloudflare relative to other solutions, it was a no-brainer.**”  
**Abraham Ingersoll**  
 Chief Security Officer  
**THG**

**THG**

- **Replaced Zscaler** with Cloudflare for workforce security to consolidate and reduce operational complexity
- **Migrated dozens of policies** covering 100+ content categories and custom URL lists in ~1 week
- **Reduced software deployment times** from hours to minutes

[Learn more >](#)

- **Replaced Zscaler and Cisco** with Cloudflare to secure access for 2,500+ employees across self-hosted apps and infrastructure
- **Started process of deprecating network appliances** — avoiding approximately double projected costs
- **Protected data within emerging AI tools**, including ChatGPT and Bard

**Top 10 U.S. children's research hospital**

- **Replaced Netskope** with Cloudflare for Zero Trust access to internal apps for 5,000+ workers, including clinicians and researchers
- **Protected sensitive health data** (PII/PHI) utilizing DLP and SWG controls
- **Reduced risks of shadow IT** by preventing uploads of sensitive data to unapproved storage

## Analyst-recognized SASE platform

- Named for the first time in 2024 Gartner® Magic Quadrant™ for **Single-Vendor SASE**
- Named in the Gartner® Magic Quadrant™ for **Security Service Edge (SSE) for 2nd consecutive year**
- Named a Customer's Choice in the 2024 Gartner® Peer Insights™ Voice of the Customer: **Zero Trust Network Access**

- Strong Performer in the Forrester Wave™ for **Security Service Edge (SSE) Solutions**, Q1 2024
- Strong Performer in the Forrester Wave™ for **Zero Trust Platforms (ZTP)**, Q3 2023
- Leader in the Forrester Wave™ for **Enterprise Email Security**, Q2 2023

- Leader in the IDC MarketScape for **Zero Trust Network Access (ZTNA) 2023**
- Leader in the IDC MarketScape for **Network Edge Security as a Service 2023**
